

Memorandum

To: Miss Chun

From: Mr. Ward

Saw Wise and Aku this morning. They want you as chairman of the program to telephone the people on this list and ask them to participate in the benefit show on June 3rd.

You may tell them that we will arrange transportation and schedule their event, if possible, at the time most convenient for them in case they have other engagements. They believe the request for their services should come from Palama rather than from Hal Lewis Associates. They have mentioned the possibility of their being asked to several of these people.

Report to Lewis or Wise those who agree to participate and also those who are doubtful or refuse. Once we have made the initial request they would be willing to put the bite on these people if necessary.

Would suggest that you try to reach them all at your earliest convenience.
