RE: musical (!) groups

Janet Nabashima has run across a band (one at least) that isn't too well loved by the neighbors — those within "earshot". She may be calling you to schedule a practice session (on a regular basis). I've advised her that after classes (at least upstairs ones) - 6:30 (?) on Mondays & Wednesdays & Fridays is

okay - (JW staff would be able to check on them) -

Stipulations: membership, no smoking, leave facility in good condition, no "outsiders" - only band members responsible for room -

We have no instrument (?) or instructors. your services or booking agent available if groups pass out - responsible behavior etc -

Let me know if you are contacted -
