

Pre-school

August 31, 1959

Total Attendance.....1536
Total Absence.....294
New Pupils.....16
Drops.....28

General Statement:

The children had an enjoyable summer. Every Friday was excursion day. They looked forward to this event. We have gone to the beach, zoo, aquarium, University farm, airport, Moanalua garden and other parks. The neighborhood children especially enjoyed these excursions. For many of them have had very little experience going to these various place.

Our enrollment this summer was very good. Enrollment for Fall is all filled. We have a waiting list.

Miss Esther So Arrived on August 25, to resume her former position as Director of the Pre-school. She has been away for three years. We welcome her back.

My three years at Palama Settlement Kindergarten and Pre-school has been a very happy one. I have enjoyed my work here. My staff members have been most cooperative and I know that they will give Miss So the same cooperation as they have given me. I know too that the school will continue to grow and maintain the standard which is known throughout the community., it will serve the immediate community and be integrated into the total Palama Settlement program.
