2. IMMEDIATE PROBLEM
   a. budget for 1954
   b. Recommendation given by Committee (salary increase)
3. Ways and Means of increasing the enrollment
4. Necessity of decreasing the staff.

SPECIAL EVENTS

Excursions: 6/22

The older children were taken to the Moanalua farm and dairy. The boys especially were impressed by the enormous size of the bull. The day we visited, the cow had given birth that morning to 2 calves. We also saw the cow being milked by machinery. We then proceeded to the dairy. The washing process of bottles was interesting and the filling and bottling of milk. Best of all the children all enjoyed having chocolate milk.

The younger children also were taken to see the farm and dairy and were given chocolate milk as well as Cisco Kid plastic cups for each child who visited the dairy. The children were happy to take it home to show to their parents.

6/29

There was eagerness and anticipation on the part of the children to visit the Fireboat. The children were shown the newest fire fighting equipment, the ladder and hose trucks and finally the fireboat. Getting on board the boat gave the children a thrill. We were shown the engine room, the lounge, the kitchen and the forward deck where the steering wheel was found. The children were interested in the life boat and raft found on the deck. The guide who took us was very friendly and the children enjoyed talking to him and asked him many questions.

A swim at the Kuhio beach was one of the features that was enjoyed by the children. We also had water play at school and the rubber raft was one of the best and favorite play equipment outdoors.

The older children visited the Bishop Museum and showed interest in seeing the fish, bird, shell, coral, crab, and various exhibits. Many were impressed and a little fearful and uneasy about the huge whale which hung near the ceiling. They all wanted to know whether it was real or not.

The last week of summer session, the children were kept busy with a birthday party and going out for a picnic lunch to Ala Moana Park. The older children were able to go for a swim and the younger children visited the Children's Museum. The lunch tasted good for we were all hungry after the swim and returned to school in time for nap. We were fortunate to have good weather that day.

Last Day School Program. A good interest and response was shown by the parents in attending the program. We had about 25 parents present. They all enjoyed the program and commented how much the children enjoyed the summer program at school. Many were regretful that the session had ended.

We have 30 registrants for September.
Mrs. Chun Hoon donated a scooter to the pre-school.
