Re: Palama Kindergarten & Pre-school Plans for September, 1957

With the Vineyard Street widening which will be in effect sometimes in the Fall, it will be necessary for the Palama Kindergarten & Pre-school to move into the present Medical Building of Palama Settlement in September, 1957 so as not to disrupt the school program. Work will start in June for renovation to the Medical Building. We will temporarily stay in this building for approximately 5 years until ~~the~~ such a time when the Palama Settlement program have been settled.

Enclosed is the future floor plans of the Medical Building for use as a kindergarten. Any suggestions or alterations according to the Rules and Regulations of Day Care Centers, will be appreciated.

Mrs. Rosario A. Sabala, Principal
