

Kindergarten & Pre-school

February 27, 1959

Total Enrollment.....100
Total Attendance.....1694
Total Absence.....198
New Pupils.....10

Enrollment:

Our enrollment has gone up 100. Our Day Care is now 67 and Kindergarten is 33. We are full to capacity. We have 9 on the waiting list, which are all Day Care students. We have had several calls for registration for Summer & Fall Sessions, however, we are not taking any as it is too early to know how many of our present students will be dropping out during the Summer.

The children were given Vision testing. Ninety-two were tested. Six had vision to be corrected. A follow-up by parents will be done. This is very good report.

Staff:

Our staff is using the new kindergarten "Surprise Newspaper," which is geared to the kindergarten level. It is excellent toward developing interest in science, experience, use of vocabulary, picture reading and developing other concepts. This paper which is weekly, is highly recommended by Mrs. Nightingale, Director of Pre-school-Primary department of the University of Hawaii. She has recommended that her teachers and students' teachers subscribe to this paper. The children enjoy it and look forward to the next issue.

P.T.A.:

P.T.A. purchased two new record player for the school and \$50.00 worth of books.
