

MUSIC DEPARTMENT

Minutes of Staff Meeting held on April 13. 1953

A discussion was held on the program which the Music Department will participate in for the day camp during the summer months. Since we have been asked to devote 7 hours per week to this program, the teachers have been asked to start planning for these activities.

Mrs. Wilkins requested that the old music which has been stored ^{in her room} be removed, since she has a small room which appears crowded and cluttered with these items. She also requested that a lamp be purchased because of the poor lighting condition in her room.
