Gentlemen:—A great many venture-
some persons have undertaken to tell
the world of conditions that are likely
to exist after the close of the World
War. Reports of all sorts of associa-
tions and organizations are full of pro-
phecies. Your Head Worker, not being
a prophet, and not being possessed with
as much foresightedness as some of his
wiser colleagues, in his line of endeavor,
does not propose to burden you with
his ideas of what society will be in the
future, but to state, in as few words as
possible, Palama's work during the year
1918.

The year began and ended with
changes in the staff of workers. Cupid
was responsible for the first change and
the Red Cross for the last. At the pres-
ent time, with but two exceptions, our
staff of nurses is a new one compared
with that of a year ago, while several
changes have had to be made to meet
the conditions arising from the going
into the service of our country of sev-
eral other workers.

Medical Work.

The following figures will give some
idea of the work of this Department of
the Settlement:

New patients	2,935
Total number cases treated.	11,334
Nursing calls	7,867
Social calls	96,360
Total treatments	162,327
Sent to doctors.....	1,075
Sent to hospitals.....	487
Dental clinic treatments....	2,156
Free Dispensary cases treated	4,879
Medicines, etc., dispensed..	5,732

Pa Ola Day Camp.

Total number of patients..	46
Total attendance	5,644
Average attendance per day	15½

The Pa Ola Day Camp still lingers in one building, which is very inadequate to house this growing work. A separate dining-room and class-rooms are needed; this would allow of the present quarters being used for rest purposes.

Fresh Air Camp.

During the year 307 mothers and children were given a two weeks' outing at the Fresh Air Camp at Waialua at a per capita daily cost of 54.9c; of this cost, 38.13c was for food, the balance being cost of transportation and wages of servants.

The addition of some five acres of land given to the Settlement by Mr. W. W. Goodale for the balance of his lease will prove a blessing to the camp. This land was cleared at very little expense to the Settlement, through the courtesy of Mr. Rose, Sheriff of the City and County, who detailed prisoners to this work.

At present the camp can only care for 64 persons at one time. The addition of a dormitory would add to the capacity of the camp and enable the Settlement to take care of more people during the summer months.

Social Activities.

Boys' Clubs:	
Enrolled	471
Average daily attendance....	326

Girls' Clubs:	
Enrolled	325
Average daily attendance....	234

Playground:	
Average daily attendance....	90

Evening Classes:	
Average enrollment	80
Average attendance	55

Music Classes:	
Enrollment	24
Average attendance	18

Housing.

The cottages both at Palama and Mahulia were occupied during the entire year. There is a great demand for cottages, and no difficulty is experienced in the renting of our cottages.

General.

During the year your Head Worker devoted twenty-seven weeks in helping to raise funds for the Red Cross and United Welfare Campaigns, as also in the membership campaign for the Red Cross.

The need of a trained assistant is great, and just as soon as one can be secured, I will initiate him into the work, when I believe Palama will render a larger service to the community.

To all my co-workers, as well as to you gentlemen, my thanks are due for loyal support during the trying year of 1918.

Respectfully,

JAS. A. RATH,
Head Worker.
