

PRE-SCHOOL QUARTERLY REPORT

Rosario Sabala

October 23, 1962

<u>MONTH</u>	<u>ENROLLMENT</u>	<u>DROPS</u>	<u>NEW</u>
<u>July</u>	100	10	5
<u>August</u>	93	18	11
<u>September</u>	76	44	27

STATEMENT:

July: Capacity enrollment - the largest enrollment for summer. One scholarship child, referred from Council of Social Agencies. Tuition paid by the Council.

Very active summer program scheduled different activities during the week such as: Monday - swimming for all pre-school; Tuesday - Gym; Wednesday & Thursday - water play; Friday - excursion. Because of this type of program and excursions the Settlement does not have enough cars for the varied activities throughout the Settlement and therefore in the future we should have more cars for transportation.

August: Pre-school children were given Flouride Treatment. 95 children participated. It took three weeks to complete treatment.

The Building Superintendent of the City & County recommended 65 pupils for September due to lack of area square feet in the entire pre-school building.

September: Enrollment of Pre-school dropped due to the Building Code of the City & County. Future of Pre-school is uncertain. The Board of Trustees of Palama Settlement will determine the future.
