## PALAMA SETTLEMENT

King and Liliha Streets, Honolulu,  
T. H.

---

### Trustees

Class 1918—Mr. J. R. Galt, Mr. G.  
P. Denison, Mr. F. J. Lowrey, Mr. Jno.  
A. Hughes, Mr. G. H. Angus.

Class 1919—Hon. Geo. R. Carter,  
Hon. G. N. Wilcox, Mr. A. L. Castle,  
Dr. O. E. Wall.

Class 1920—Mr. W. F. Dillingham,  
Mr. Jno. Waterhouse, Mr. Richard  
Ivers, Hon. W. R. Castle, Dr. W. D.  
Baldwin.

### Officers

President.....Mr. J. R. Galt  
Vice-President..Mr. W. F. Dillingham  
Secretary.....Mr. G. P. Denison  
Treasurer.....Mr. Jas. A. Rath  
Auditor.....Mr. W. J. Forbes

To the Trustees, Palama Settlement,  
Honolulu, T. H.

Gentlemen:—Palama will reach its majority on June 1, 1917. For four-teen years it was conducted as Palama Chapel and Palama Mission, becoming incorporated as Palama Settlement in 1910. I do not propose to go into the history of Palama since its incorporation, tempting as that is; but will confine myself to briefly outlining the work for the year 1916.

### Medical Work

It is hard to state the value of the medical work of the Settlement in words. The statistical report of the work done by the nurses conveys but a faint idea of what these women accomplish. A visit to any one of the seven dispensaries conducted by the Settlement will convince the most skeptical of the worth of the nurses to the city of Honolulu.

That their work in the schools is appreciated is evidenced by the following statement from Mr. H. W. Kinney, Superintendent, Public Instruction:

“In connection with the question of Child Welfare work in this city, I wish to state that the Department of Public Instruction most thoroughly appreciates the splendid service which is being done by the nurses in the school dispensaries under your direction. As a matter of fact, these services have reached the point where they may

surely be considered as being absolutely indispensable, and the community should be conscious of a great debt towards your institution.'"

In January, 1916, the Settlement took over the Free Dental Clinic started by the dentists of Honolulu, and continued the clinic during the year. It is proposed to extend the hours of the clinic with a view to reaching a larger number of people.

### **Baby Welfare Week**

During the month of April, through the coöperation of the Central Child Welfare Committee and other organizations in the city, backed by the press of Honolulu, a Baby Week was held. As an outcome of this, a permanent Baby Welfare Station is now in operation at the Settlement. In this work we have had the very cordial coöperation and support of Dr. J. S. B. Pratt of the Board of Health.

### **Pa Ola Day Camp**

This little institution hid away back of Kaumakapili Church and Parsonage, has continued its work of ministering to children afflicted with incipient tuberculosis. The school for tubercular children was continued at Pa Ola during the year.

The work still lingers in one building. \$1,000.00 would give the additional accommodation so necessary to suitably house this very important adjunct in the fight against the Great White Plague.

### **Fresh Air Camp**

While the Fresh Air Camp at Waialua is not strictly speaking a part of

the Medical Work of the Settlement it is a valuable ally to that part of the Settlement's work. Two weeks of fresh air, good food and freedom from care and worry, bring the color back to many a pale-faced mother and child, and returns them to their homes in the city with a renewed hope in humanity.

During the year 252 mothers and children were taken care of at the camp, the average gain for each person being two and one-half pounds.

With the erection of three or four more cottages, it will be possible to take care of fifteen to twenty more people, without increasing the capacity of the dining hall and kitchen.

### **Social Activities—Boys' Work**

During the year 577 boys were enrolled in the various clubs of the Settlement; in addition to this number, 420 boys were enrolled in the summer activities, making a total of 997 boys reached by the Settlement. The most marked phase of the boys' work during 1916 was the growth of the idea of service on the part of a large number of the boys. One other marked feature of this phase of the Settlement's work is the loyalty of the boys to the institution.

### **Girls' Activities**

Miss E. Cunningham, who was in charge of this branch of the work, left in July for Boston, Mass., much to the regret of all her co-workers, and was succeeded by Miss Florence J. Lowe.

Here, too, it is my pleasure to report an advance. During the year 366

girls were enrolled in the activities of this department. With a suitable building to care for the girls' work, a much larger number of girls could be reached. The Playground pavilion has been converted into temporary headquarters for the girls, but is very inadequate.

#### **Playground**

This work has been continued throughout the year, and during the summer proved a blessing to a large number of children who had a great deal of idle time on their hands and were thus kept from getting into trouble.

#### **Educational Activities**

These consisted of:—

- (1) The kindergarten under the management and supervision of the Free Kindergarten and Children's Aid Society.
- (2) Evening classes in elementary English, grammar and history.
- (3) Piano instruction four afternoons a week.
- (4) Sewing and dress-making classes.
- (5) A Mothers' Club meeting once a month.
- (6) A Branch Station of the Library of Hawaii, with a reading room.
- (7) A First Aid Class conducted by Dr. H. N. Kerns of the U. S. Army.

#### **Housing**

The cottages at Palama, as well as those on Hotel street known as Pa Maluhia, have been occupied during the year, with a waiting list. There has been but one failure in the payment of rent, which speaks for the appreciation which the wage-earner

has for decent living and housing conditions. So long as our frame tenements are allowed to exist and shut out pure air and sunshine, it is futile to talk of eradicating tuberculosis and other communicable diseases.

#### **Personnel**

During 1916, there were but two changes in the Settlement staff, one being Miss Cunningham, to which reference has already been made, and the other, Miss Daisy Saffery, who entered the Queen's Hospital for training.

#### **Outside Activities and Coöperation**

In addition to the regular work at the Settlement, several of the workers have been active in various other civic and social organizations, all working for the betterment of our city, and as a result of which we have had the very hearty coöperation of the Associated Charities, Territorial Board of Health, School Department and other associations and individuals too numerous to mention.

#### **Needs**

The great and crying need of Palama Settlement today is adequate buildings in which to carry on its growing work. A visit any afternoon will show that our present buildings are overcrowded. We need:

- (1) An adequate building to care for the kindergarten and girls' work.
- (2) A suitable dispensary building.
- (3) Added facilities for the boys' work.

The present building used by the girls is inadequate and too small. The

basement has become too small for the Medical Work of the Settlement, while the present boys' club rooms are more than crowded. In order to do a better work, your workers need better tools. Give us up-to-date tools and we will accomplish not only more work, but better work.

Eugene Foss wrote:

“Give me a house by the side of the road,  
And let me be a friend to man.”

Palama meets this cry of Foss; it is truly a “house by the side of the road,” and its workers have endeavored to be friends to all men who have sought its friendship, but it needs a larger house.

I know you gentlemen of the Board of Trustees are busy men, but I also know that as business men you realize how difficult it is to carry on a growing work in crowded quarters—this is my only excuse for being persistent in this matter.

To you Trustees, who have given of your time to the affairs of Palama, I and my associates are under a deep debt of gratitude, as well as to all organizations and individuals who have helped the work financially.

Respectfully submitted,

JAMES A. RATH.

## BOYS' WORK DEPARTMENT

To the Trustees and Members  
of Palama Settlement Association.

Gentlemen:—It is a pleasure to chronicle the doings of a year such as nineteen-sixteen was for the boys' work of Palama Settlement. It was a period of marked growth in numbers and in evident results. More character-building activities were engaged in by a larger number than ever before. The Settlement as a community center exercised greater influence with the young people of the neighborhood, and through them, with the adults. There has been a noticeable decrease of hoodlumism in Palama, due to a variety of causes, notably a decrease of involuntary unemployment, but also a result of opportunity to employ leisure time profitably. Instead of infesting the neighborhood as predatory gangs, boys are being organized into recreative, educational and social clubs that satisfy the boys' gang instinct, utilizing to the full all the good in it and minimizing the dangers.

Five hundred and seventy-seven boys were enrolled in the different Palama clubs during the year, plus four hundred and twenty who enrolled for the summer session. That there is no race discrimination is evident from the following classification: Hawaiian 49, Caucasian-Hawaiian 77, Chinese-Hawaiian 22, Mexican-Hawaiian 1, Spanish-Hawaiian 3, Japanese-Hawaiian 1, Japanese 224, Chinese 127, Portuguese 18, English-Portuguese 2, Filipino 4, American-Filipino 5, Russian 15, Ko-

rean 7, Porto Rican 4, Spanish 5, Chinese-Porto Rican 1, Porto Rican-Indian 1 Brazilian 1, English 8, Sikh 1, Brahmin 1.

The activities that the boys have engaged in may be classified as physical, educational and social. Naturally the physical activities loom up largest, play being the serious business of life to a boy.

### **Team Games**

Great emphasis has been placed on team games because of their importance for physical, mental and moral education. Team games, carefully supervised, are at once agencies for health, teachers of fair play, and sources of keen enjoyment. There were fourteen teams that competed on regular schedule throughout the year. In addition, there were representative teams from midget, junior and senior divisions that competed with the Y. M. C. A. boys' clubs and with the Fire Station. Teams were also sent down from time to time to play prisoners' teams at the Oahu Prison and at the City and County Jail. The Settlement was also responsible for promoting the Kaulani School Athletic League with its thirty-two teams.

### **Athletics**

Indoor and outdoor tracks and field meets, cross-country races, night runs and distance relays have been of absorbing interest. Boxing and wrestling instruction has also been eagerly received.

### **Aquatics**

The swimming tank continued to be a big attraction every day in the year. The Palama Swimming Club which was organized last spring was highly successful in the A. A. U. meet during Carnival Week. It is a flourishing club, and has tremendously stimulated interest in the natatorial art at Palama. Many aquatic meets have been held in the tank during the year.

### **Gymnastics**

Classes in gymnastics and calisthenics were conducted, but unfortunately interest in them was not very long sustained.

### **Library and Reading Room**

A branch station of the Library of Hawaii has been maintained and very much appreciated. On the tables were placed many current magazines which were much read. This room provided a place where boys could do their school home work.

### **The Night School**

Enrolled a hundred and twenty students, and was in session eleven and a half months, at the earnest request of the pupils. English was the principal part of the curriculum, together with some American History, European and American geography and civics.

### **The Palama Troop of Boy Scouts,**

again under the strong leadership of Mr. Robert Anderson, had a highly successful year, the growth of the boys in ability and in character being quite evident. There were two camps with Professor Bryan's troop, at Kaalawai and Waialae, the big divisional camp

at Kailua, hikes, instruction in all branches of scout craft, participation in public festivals and in the November Red Cross Seal Campaign.

### Lectures and Talks

An admirable twelve weeks' lecture course was given by Lieut. Dr. Kerns on First Aid and personal hygiene. Many informal talks and discussions have been had in the various clubs meetings on such topics as personal ethics and habits, the war, American and world politics, the race question, civic problems, etc.

### Social Events

Effective cooperation of the girls' and boys' clubs made possible a great many enjoyable social affairs. There were breakfasts, suppers, camp fire corn roasts and chowder suppers, a luau, picnics, auto-truck trips to Waialua and a big field day at Moanalua. The boys also held vacation camps at Waialua, spending part of each day working on the grounds and buildings preparing for the mothers' and babies' fresh-air camp. The games rooms, with their billiard and pool tables, ping pong, shuffle board, quoits, checkers, etc., were in very constant use at all times. Motion picture shows were given twice a month. The different clubs took turns at giving the monthly dances, and there was keen rivalry to give the best. They were all largely attended and well managed.

### Advice and Assistance

The Settlement workers' offices are open at all times to boys who are in trouble or who stand in need of as-

sistance such as they might be able to render. Family misunderstandings have been straightened out, boys and their fathers have been assisted to employment, boys advised with as to their studies and choice of vocation, and boys whose habits were not of the best have been assisted to see things in a different light.

### Kaiulani School Athletic League

Three years ago the Settlement was asked by the Department of Public Instruction to organize physical training work in the Kaiulani School, which with its over fourteen hundred pupils is the largest school in the Territory. The first year eight classes were organized, the next year seventeen, and this year thirty-two classes are organized, every boy in the school being given opportunity to participate. Three points are worthy of mention in regard to this athletic league, viz: (1) The teams are all managed by elected representatives from the different classes. (2) The eighth and seventh grade boys are carrying the responsibility for the first and second grades, doing all the managing, coaching and umpiring for them. (3) A start has been made towards co-relating athletics with the class room work by having oral and written reports required from leaders of teams.

### Palama Settlement Athletic Association

Another stride forward in the democratizing of Palama clubs was taken last fall by the organization of this association, composed of delegated representatives from junior, inter-

mediate and senior clubs and from the trustees. They have full control of all Palama's athletic relationships with other organizations. Senior clubs have three delegates each, intermediate clubs two and junior clubs one. At their organization meeting they were successful in securing A. L. Castle as their president and he has given them strong backing. Lionel Brash was elected vice-president and Otto Thiess, secretary-treasurer.

### Some Results

There has been a noticeable improvement in manners and deportment during the year, evidenced in such matters as removing hats in the building, waiting regular turns at the billiard tables, courtesy to visiting teams, proper behavior between young men and young women, a willingness on the part of the older boys to help the younger ones, greater respect for settlement property and willingness to report accidental damage instead of sneaking away. There has also been evinced a greater willingness to shoulder responsibility. More work has been done by committees, and greater initiative and resourcefulness shown. There has been very effective cooperation between the different clubs.

### Appreciation of Assistance

All these activities for the boys of Palama would not have been possible but by the cooperation of several people. To Mr. Robert Anderson belongs the credit for the splendid work of the scouts; to Messrs. A. L. Castle, Harvey Chilton, Benj. H. Clarke, D.

L. Conkling and Frank Rosehill for the athletic and aquatic successes of the year; and to Lieut. Doctor Kerns for a splendid lecture course. T. H. Davies & Co. were generous with their auto trucks. Mr. L. Young Correthers and Miss Evelyn Cunningham trained a troupe of boys to give an old English Morris dance at the Opera House in connection with the Footlights' "Taming of the Shrew," and Mr. H. von Holt gave a course of lessons in dancing and deportment.

### What We Are Trying To Do

The needs we are trying to meet are well stated by a writer in the "Survey" recently, Mr. C. J. Atkinson, president of the New York Boys' Clubs Federation.

"The under-privileged boy in most communities of ten thousand population and over is safely estimated at sixty-six per cent. In this class are the boys of every race, creed and color who for some reason are not getting a fair chance in life. Poverty and the size of the family necessitate the boy leaving school to go to work as soon as the law will allow. Over 90 per cent of those who become a charge upon the community are from this group.

"Preventive work, rather than reformative, is the vital thing because it saves effort, financial outlay and human values, and preventive work is most effective with youth. **Before one short decade the under-privileged boys of 1917 will control the political destinies of city and nation.**

“The organization to cope with this problem must be accessible to all, regardless of creed, nationality or social standing. It must provide sufficiently varied activities to suit the tastes of all. It must respect the code of morals and sense of justice inherent in the boy world. And it must suit its plans to meet the needs and conditions of the local community.”

Respectfully submitted,

W. R. HUMPHRIES,

Assistant Head Worker and Director  
of Boys' Work.

## GIRLS' WORK DEPARTMENT

To James A. Rath, Head Worker,  
Palama Settlement.

Having known this work personally only since September last, I feel that the excellent results secured by Miss Cunningham during two-thirds of the year can be only very inadequately summarized by me.

In June there was an enrollment of 366 girls. Clubs and classes being discontinued during July and August, found a re-enrollment during September of 119. Since that time 61 more have enrolled, making a total on January 1st of 180.

This does not include many regular attendants on the Playground, 65 in the Sunday school, a large number of former members who avail themselves of the Social gatherings and Mothers' meetings.

### Gymnasium Classes

There are three classes in Gymnastics a week: Senior, Junior and Midget; for ten months of the year. For the past year the average attendance for all classes was 32.

In February 22 girls and boys appeared in the Beetle Dance at the Children's Festival. At the Kindergarten Benefit, also in February, 35 boys drilled by Miss Cunningham, appeared in a Newsboys' Chorus and Dance.

In May a very fine exhibition was held, prizes awarded for the year's work and for special work at the exhibition.

In June the Palama girls played a series of basketball games with Wailuku, Maui, team; winning the series. Later a series played at Maui was won by the Maui team.

The Play-Fest was a great success and from it the girls were able to hand over to the fund for the Fresh Air Camp, the sum of twenty dollars.

### Swimming

Every one swims in Hawaii!

And our girls are no exception.

They have the use of the tank daily from 3:30 to 4:30.

At the swimming tryouts in June, at the Alakea slip, under the A. A. U. the 100 yards and 50 yards was won by Bernicia Lane and on June 20th, she was sent to the Coast as a representative from Hawaii.

In October the girls organized the Hui Aukai Swimming Club and Miss Ruth Stacker was secured as instructor for one evening a week.

With the younger girls, Miss Elizabeth Spencer has been doing most excellent work, starting some who we believe are to develop into exceptionally fine swimmers.

### Music

Miss Bray has had an average of thirty-five piano pupils during the year. They gave a most successful recital in June.

During April, May and June an orchestra of about ten girls practised faithfully and played at the presentation of "A Virginia Heroine" by the L. P. L. on May 13.

### Sewing

At the sewing class for younger girls held on Wednesday afternoon there has been an average attendance of 45 for the year. An exhibition was held in June, which showed that even the very young girls can make neat and sensible clothes.

In November, Mrs. W. A. Love was secured as teacher for a class in dress-making.

### Clubs—L. P. L.

Friday afternoon and evening always finds some of the older girls planning and working for the Settlement. If anything important is on hand there's sure to be a large number. Such helpful things as detail work for Baby Week, British Red Cross Tags, American Red Cross Seals, E. & A. Club breakfast, cheering for representative swimmers, preparing "kaukau" at Annual Field Meet, Sunday School Christmas Tree, are sure to find dependable representatives from L. P. L. on all committees.

Besides the various helpful activities the girls have jolly social times among themselves and at their regular meetings have this year been sewing for Palama mothers and babies.

The Camp Fire had an average membership of eleven between January and June, and their various meetings were very interesting and instructive. Their Guardian, Miss Bertha Kopke, left in June and no one has been found to take her place.

The Kokua Club formed in October, for girls from 14 to 18 years of age,

aims to meet the requirements of those girls who have outgrown the Juniors, and would not feel at home with the L. P. L. in that there could be little opportunity of developing their own initiative.

Ka Hui Lealea, a tramping club for Juniors, has visited Tantalus, Waikiki, Moanalua and Salt Lake.

The Juniors organized, in October, a club to be known as "The Sunshine Club," for girls from 12-14, who meet in their own club room on Friday afternoon, hold their own business meetings and make their own plans for work. The object in both Kokua and Sunshine Clubs is to make the girls feel a personal responsibility and learn by experience that careful thought and planning are necessary to success.

Mothers' Club is a club for the neighborhood "mothers," in charge of Mrs. Rath. The meetings aim to be mutually helpful, being entertaining and instructive in return for help in sewing, mending, etc.

### Special Activities

There are motion pictures every other Saturday in the gymnasium, open to all club members and their parents.

Once a month all clubs come together socially, evenings planned by clubs in turn.

A Branch Library has been operated in the pavilion since February.

Many thanks are due Mr. and Mrs. George P. Castle for so generously allowing us the use of their Swimming Tank and Social Hall every Friday.

The L. P. L. play "A Virginia Heroine," given on May 13, was a great success.

In June came the Annual Field Day at Moanalua for boys and girls. After kaukau, which was prepared by Scouts and L. P. L., the Midgets and Juniors returned with Miss Emily, and the Seniors hiked in by moonlight.

Beside the many "good things" of June came the sad one of parting with Miss Cunningham. The girls gave her a Surprise Luau and showed their devotion to her by a most glorious send-off. We all hope she will soon return to Palama!

Over Labor Day, sixteen girls enjoyed the hospitality of Mr. and Mrs. Rath at Waialua and greeted their new leader, Miss Lowe.

At Christmas time, the Girls' Clubs celebrated the opening of their new club rooms. The Sunday School gave their entertainment, "Christmas In Many Lands," in the Gymnasium. A tree was placed on the playground, but owing to the rain the band concert had to be held inside.

### The Playground

From January to June, story-hour, phonograph concerts, quiet reading and games were held in the Pavilion. In June the playground was cleared; swings, rings, see-saws and sand-boxes were put in place; and during July and August, Mrs. Emily Lewis assisted by Miss Thelma Peters took care of about 250 children a day. In October, a large slide added to our equipment brought new joy and delight to the youngsters.

Mrs. Lewis resigned at the end of the year and Miss Stacker has been engaged to take her place.

The great problem of housing the girls was partly solved in October by converting the playground pavilion into two large rooms; the sides latticed and all given a new coat of paint.

The girls can now come here at any time; find magazines, books, games or music at their disposal, and they are very grateful for their comfortable quarters.

Respectfully submitted,

FLORENCE J. LOWE.

## REPORT, NURSING DEPARTMENT.

### Yearly Summary, 1916.

New patients .....	6,492
Total number cases treated....	13,966
Nursing calls .....	7,631
Social calls .....	96,334
Total treatments .....	163,573
Sent to doctors .....	1,426

Respectfully submitted,

ERNEST B. CLARK,

Treasurer.

Honolulu, Feb. 1, 1917.

To the Board of Directors,  
Palama Settlement,  
Honolulu, T. H.

Gentlemen:—This is to certify that I have examined the books and accounts of the Palama Settlement to December 31, 1916, and finding the Trial Balance sheet correct, have signed the same in the Settlement's book.

The examination has included verifying the Cash Book entries of receipts with the receipt book stubs, and of disbursements with vouchers on file; counting the cash on hand after close of business, December 30, 1916, and proving it correct as shown on statement of Cash Audit attached; checking all postings to the ledger, also individual donation accounts as shown in subsidiary book, and checking all bonds and notes at the Hawaiian Trust Company, Limited, representing the Reserve Fund, and their account current which was found in order.

Respectfully submitted,  
W. J. FORBES,  
Auditor.
