PALAMA SETTLEMENT
M E M O R A N D U M

DATE: March 7, 1963
TO: Lorin Gill, Campus Services Supervisor
FROM: A. L. Y. Ward, Executive Director Pro-Tem
RE: Music School

Music School income has fallen from \$2,400 last year this time to approximately \$1,800 this year. It is my understanding that Dorothy has some additional children lined up to take lessons and that there is plenty of open space in the scheduling to take care of them provided teachers can be found.

It is also my understanding that teachers are available if the Settlement will authorize their employment. Under the circumstances I think it is imperative that you hire the additional teachers so that this program will not needlessly fall into a worse deficit position than we anticipate.

I wanted to discuss this with you but you were in conference and I feel that we must get cracking on this at the earliest inasmuch as the Board today indicated that it is willing to continue the music piano lesson program until such time as it receives a report from the Executive Director indicating the desirability of giving up this program.

A. L. Y. Ward

A.L.Y. Ward

Am sending this memo as a reminder even though I did finally get you on the phone.
