General Statements:

The children are busy with their Thanksgiving Projects of turkeys made of potato, coconuts and paper. The older children are making vegetables of paper mache for their Thanksgiving Basket. Songs of Thanksgiving are taught to the children and their voices ring out joyfully.

Food: The Home Economic Department of the Public Instruction reported that there will be no distribution of any meats this year. There is hope that we will receive some in the spring of 1958.

Equipment: The pre-school purchased a second hand apartment size gas stove for our newly renovated kitchen. The cooks will be able to prepare more baked dishes with two ovens. Our serving dishes arrived after waiting for almost 3 months.

Staff: All of the staff teachers are now member of the Association of Childhood Education International of the University of Hawaii. This is one phase of professional improvements which will be advocated to the teachers. Teachers will keep up with modern techniques in education by affiliation through clubs and meetings. They attended the workshop at the Academy of Arts on November 19. on "Home made Christmas Decorations"

Parents: Executive members of P.T.A. met on Nov. 7th to discuss the Christmas party next month. A simple party was unanimously agreed for December 19th from 7:00 - 9:00 P.M. ✓
