Mr. Matsuo Takabuki
Room 200, Capital Investment Building
Honolulu, Hawaii

Dear Matsy:

Mr. Tsutomu Izumi, Building Superintendent, phoned me the other day to say that I would be receiving a copy of a communication from him to the City Council turning down our request for an 18 months' variance for our Day Care Center at Palama Settlement. This was quite a surprise to me since he had told me personally several times that he would recommend the variance and that the City Council would undoubtedly go along with it.

He told me over the phone that he felt that he had to officially recommend against the extension, although he personally feels that it could and should be granted. He recommended that we present to the Council our specific plans in connection with the Day Care Center and indicate the schedule as to when these plans will be put into effect.

We know you are familiar with our situation and attach previous correspondence between Mr. Izumi and the writer. We will certainly appreciate any help you can give us and it is obvious that something will have to be done right away.

Sincerely,

R. H. Rath

R. H. Rath, Secretary
Board of Trustees
